EMPLOYMENT HISTORY

Technical Support Engineer, Jan 2022 — Present

Microverse, Remote

- Offered technical support to junior developers through code reviews, focusing on ensuring team contributions, collaboration, and pair-programming.
- Achieved high performance, high-quality code, best practices, and professional documentation from students by using linter checks and conducting excellent detailed reviews. I saved the company time and cost of handling course module repeats by optimizing the student success in the program.

Mentor (volunteer), Sep 2021 — Nov 2022

Microverse, Remote

- Contributed to the leadership and mentorship program by hosting personal development sessions through Zoom meetings for newly enrolled Microverse students, focusing on motivation and productivity.
- Achieved a high level of satisfaction from students who I helped with managing tasks, setting SMART goals, and practicing a growth mindset. Succeeded in driving my students to complete the program with impressive scores.

EDUCATION

Full Stack Development, Aug 2021 — Apr 2022

Microverse, Remote

- Full-time program that required work across time zones while pair programming with other software engineers located around the world.
- Leveraged Agile methodologies requiring excellent communication skills to share project status updates, plan daily workflow, create solid documentation, and attend daily standups.
- Used and taught mentees industry-standard git-flow.
- Coding projects included front-end, back-end, and full-stack projects using Ruby on Rails, JavaScript, React, HTML, and CSS -- and included unit testing when applicable.

B com (Informatics), Jan 2012 — Nov 2014

University Of Pretoria - Hatfield Campus, Pretoria, GP
